Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This action is responsive to communication filed on January 09, 2009.

Response to Amendment

The amendment of claims 13 and 22 is not entered because the prosecution of these claims is closed..

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pope US Patent 5963624 in view Graham US Patent 4005428.

Regarding claim 1, Pope teaches transmitting appliance control codes (i.e., keystroke indicator) from handset 10, 50 (i.e., remote near control) to base unit 12 (i.e., key code generator). The base unit (12) which the examiner considers as the key code generator therefore receives the keystroke indicator indicating a key on the remote control. Pope teaches generating a key code within a key code generator device using the keystroke indicator signal by the base unit processor retrieving an infrared control code from memory (86) based on the appliance control code (keystroke indicator signal) and transmitting the key code from the key code generator device to the appliance (col. 3 lines 35-40). Pope is however silent on teaching modulating the key code onto a carrier signal. Graham in an analogous art discloses modulating a digital code or binary code onto a carrier signal (col. 2 lines 7-21). Graham describes that doing

so offers the advantages of precluding unauthorized or accidental activation of a control associated with the receiving means and provides an exceptional degree of security and privacy (abstract).

It would have been obvious to one with ordinary skill in the art at the time the invention was made to modify the method of Pope to include modulating the key code onto a carrier signal since doing so offers the advantages of precluding

Claims 13, 18, 22, 23 stand rejected based on the decision by the Board of Patent Appeal and Interference.

Allowable Subject Matter

Claims 11-12, 17, 19-21, 24, 25-26 are allowed.

Claims 2-10, 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
